

2010
YEAR IN REVIEW

Achievements

 Hackettstown Regional
Medical Center

MESSAGE FROM the President

On January 1, 2011, I became President of Hackettstown Regional Medical Center. I am honored to be entrusted with this new responsibility. Over the past nine years, I've become very familiar with the people and processes that have made this facility one of the most respected in the State. I want to say a special thank you to Gene C. Milton, Ph.D., FACHE, who served as president for the past 25 years and oversaw the tremendous growth and development of medical services and facility expansion. He was an inspiration to many; and he has been a personal mentor to me. I wish him success as he transitions to his new, more relaxed life.

In 2010, Hackettstown Regional Medical Center developed a new clinical collaborative agreement with Hackensack University Medical Center that will strengthen and support our existing programs and bring additional, leading-edge diagnostic and medical treatments to northwest New Jersey. We implemented a new internal software system that will enable us to change our record-keeping from paper-based to electronic. We introduced Urogynecology and Endoscopic Ultrasound services to the region, expanded our pediatric services by welcoming a team of pediatric hospitalist physicians on our staff and opened a Total Joint Center.

I am excited about what we've accomplished during 2010 and about the opportunities we have here at HRMC as we face the future. While the landscape of health care continues to change, I am confident we will continue to be successful. Our medical center has become known for a culture of superior service and the high level of compassion we provide to our patients and families, day and night. It's what sets us apart from other health care institutions; and I am determined that we will continue to build on this reputation through the coming years.

Increased competition, health care reform, and regulatory changes will be some of the catalysts bringing about change to HRMC. Our most powerful motivators will continue to be quality of care and the patient experience at HRMC.

A handwritten signature in black ink, appearing to read 'Jason C. Coe', written in a cursive style.

Jason C. Coe, M.B.A.
President

MEDICAL Programs & Services

In 2010, HRMC added a number of new medical diagnostic and treatment services for patients. Here we highlight some of the new or expanded medical programs and services added during the year.

HRMC and HUMC Sign Clinical Agreement

One of the most exciting announcements is Hackettstown Regional Medical Center's new clinical collaborative agreement with Hackensack University Medical Center. While the agreement was formally signed in early January 2011, the negotiation and development of the agreement took place in 2010.

This agreement will enable HRMC and HUMC to collaborate and expand clinical programs and services, further improving the high quality medical care HRMC provides patients in northwestern New Jersey and northeastern Pennsylvania, effective January 7, 2011.

This far-reaching partnership between HUMC and HRMC will benefit patients by strengthening and supporting HRMC's existing programs and bringing additional

state-of-the-art care and specialized diagnostic and medical treatments to Hackettstown and the surrounding resident and business communities of northwest New Jersey, including Warren, western Morris, southern Sussex and northern Hunterdon counties and portions of the Poconos in Pennsylvania. The collaboration agreement also will foster a closer working relationship between the medical staff and physicians at hospitals, both complementing and supplementing the medical and surgical services already available at HRMC.

Care Excellence Cerner Millennium System Installation

In January 2010, HRMC implemented a new medical internal software system that has made a strong impact on how the staff provides and monitors the quality of care given to HRMC patients. The new system has been built to gradually change our record-keeping computer system from paper to electronic. Nurses and other clinical staff now use hand-held devices to record patient information and progress notes. Physicians are able to review patient lab and diagnostic imaging reports on computers at their office locations.

Urogynecology Services Now Available Locally

Two urogynecologists joined the Medical Staff at HRMC in 2010: Paul Littman, D.O., of Skylands Urology Group in Hackettstown and Sparta, and Michael Ingber, M.D., of Morris Urology in Flanders and Denville. This is the first urogynecologist specialty service in Warren and Sussex counties.

Pediatric Services Expanded

HRMC introduced a new hospitalist program for pediatric services to better serve the medical needs of children in our region. A board certified pediatrician is available within the hospital or on-call 24/7 to help with the delivery

of newborns and assist or provide medical care to our children.

Pediatric hospitalist physicians care for and manage the health care of newborns and children while they are in the hospital receiving medical care. Any child admitted to the medical center is visited daily by one of the pediatric hospitalists. The pediatric hospitalists keep the family members informed of diagnostic tests and results and overall medical treatment, and they also provide daily updates to the child's regular primary pediatrician.

For newborn care, the staff pediatric hospitalists attend all scheduled and emergency C-section deliveries around the clock, provide daily newborn exams and daily visits or rounds with parents and follow-up with the parent's chosen primary pediatrician. The pediatric hospitalists are on-call for the staff taking care of babies in the nursery and arrange and manage the process of transferring any newborns who may need the services of a Neonatal Intensive Care Unit.

For children visiting HRMC's Emergency Department, the pediatric hospitalist physicians will provide consultation services to our staff emergency physicians. They will also provide medical management for pediatric surgical patients.

Discover the New You: Total Joint Center

Hip and knee replacement surgery have come a long way. HRMC's new Total Joint Center offers individuals in need of joint replacement a comprehensive program including pre-surgery education, pre-operative planning, rehabilitation, and post-operative planning. The Total Joint Center offers a new way of thinking about joint replacement patients. Program Coordinator Robyn Gilyard, MS, RN and exercise physiologist, meets with

individuals who are considering having replacement surgery, and follows their progress throughout the program. All of HRMC's orthopedic surgeons who specialize in joint replacement participate at the Total Joint Center. To learn more about HRMC's Total Joint Center, please call (908) 441-1144.

HRMC Introduces Endoscopic Ultrasound

Hackettstown Regional Medical Center is the only hospital in Warren and Sussex counties to offer this advanced technology. The diagnostic procedure is performed by board certified Internist and Gastroenterologist Dr. Srinivas Madane. Endoscopic ultrasound joins traditional endoscopic procedures with ultrasound technology. It allows a doctor to obtain images and information about tissue and structures not only within the digestive tract, pancreas and gallbladder, but also surrounding them.

HRMC Emergency Medical Services Earns Mt. Olive 911 Contract

In 2010, HRMC Emergency Medical Services, Inc., began providing 911 transportation for the residences and businesses of Mount Olive Township between the hours of 5 am and 7 pm, Monday-Friday only. This represents 12 hours per day, Monday through Friday. The two-year agreement is the first for HRMC EMS. HRMC Emergency Services rented the former

MEDICAL Programs & Services *(continued)*

Blue Atlas building near Turkey Brook Park to house two ambulances for Mount Olive use and provides four (4) Certified EMTs dedicated to Mount Olive Township per day.

Gene C. Milton, Ph.D., FACHE, Retires; Jason C. Coe, M.B.A., Named President

In early 2010, Gene C. Milton, Ph.D., FACHE, announced he would retire effective December 31, 2010, after 28 years of service to Hackettstown Regional Medical Center. Later in the year, it was also announced that Jason C. Coe, chief operating officer at Hackettstown Regional Medical Center the prior eight years, would move into the role of HRMC president effective January 1, 2011. According to retiring President and CEO Gene Milton, “The selection committee to find a successor could not have picked a finer, more accomplished person than Jason to lead Hackettstown Regional Medical Center. He understands the culture of compassionate caring of our medical center as well as the challenges facing the health care field nationwide.”

Newly appointed President Coe added, “I am honored to have the opportunity to follow Gene’s lead. I’m proud to be part of the truly exceptional team of physicians, nurses and staff at HRMC. Together, we have worked very hard to expand the medical programs and services offered here. I am committed to meeting new challenges as we continue to provide the best quality health care available to the communities we serve, and I’m excited about what the future holds for HRMC.”

Other Services Include:

24/7 EMERGENCY CARE

(908) 850-6800

- Eight ED physicians; two ED physicians are on site from 11 am – 11 pm
- 12 private rooms, including rooms specially equipped for cardiac and stroke patients, plus one semi-private room for orthopedic patients
- Affiliated with New Jersey-based tertiary care facilities
- Helicopter pad located near ED entrance

ADVANCED DIAGNOSTIC IMAGING

(908) 850-6842

- CT-16
- Bone density scanning
- Digital radiography
- Digital fluoroscopy
- Digital mammography
- Nuclear medicine
- PET/CT
- 3D and 4D ultrasound
- 3T MRI

CARDIOPULMONARY

(908) 852-5100

- EKG
- Nuclear stress testing
- Pacemaker clinic
- Tilt table testing
- Pulmonary function testing
- Arterial blood gas analysis
- Holter heart monitoring
- Pulmonary rehab

CENTER FOR HEALTHIER LIVING

(908) 850-6935

- Childbirth education classes
- Corporate health programs
- Health education and screenings
- Job physical/fitness capability evaluation
- Wellness education (*on- and off-site*)
- HealthLink senior programs

CHILDBIRTH FAMILY CENTER

(908) 979-8899

- Private and spacious LDR (*Labor, Delivery, Recovery*) rooms
- 24-hour rooming-in for babies to enhance parenting skills
- Specially designed rooms with Jacuzzi® tub for both labor pain management and water birth option

COUNSELING & ADDICTION CENTER

(908) 850-6810

- Intensive outpatient day and evening programs
- Adolescent outpatient programs with school education components
- IDRC (*Intoxicated Driver Resource Center*)
- Individual and group therapy

DIABETES CARE

(908) 850-6937

- Screenings
- Diabetes management
- Support groups

EMERGENCY MEDICAL SERVICES

- Ambulance transportation to and from the Medical Center
- Van transportation for medical appointments to and from the Joan Knechel Cancer Center and the Wound Healing Center

HOSPITALISTS

Since your primary care physician cannot be here 24/7, HRMC provides physician hospitalists around the clock. A physician hospitalist is a specialist in the field of internal medicine who focuses exclusively on inpatient care.

JOAN KNECHEL CANCER CENTER

(908) 441-1500

- Linear Accelerator, Dual Energy
- IMRT (*Intensity Modulated Radiation Therapy*)
- PET/CT (*diagnosis and treatment planning*)
- Chemotherapy/Infusion Therapy

NUTRITIONAL SERVICES

(908) 441-1482

- Inpatient and outpatient counseling
- Individualized plans

LABORATORY/PATHOLOGY

(908) 850-6848

- 24/7 laboratory services for ED and inpatients
- Transfusion services
- Outpatient walk-in blood draw site daily (*including evening, Saturday, and Sunday hours*)
- Therapeutic phlebotomy service
- Full-time pathology service

MEDICAL Programs & Services *(continued)*

PEDIATRIC SERVICES

(908) 852-5100

- Board Certified Pediatricians
- Pediatric Hospitalists
- Diagnostic Imaging
- T.C. Kids
 - Occupational therapy
 - Speech therapy
 - Physical therapy

SLEEP DISORDERS CENTER

(908) 850-7744

SURGICAL SERVICES AND MINOR PROCEDURES

(908) 852-5100

Surgical

- Breast biopsy and reconstruction
- Ear, nose, throat and sinus
- General laparoscopic
- Gastric banding
- Gynecology
- Ophthalmology
- Orthopedic (*inc. joint replacement*)
- Orthopedic – sports medicine
- Oral (*TMJ & pediatric reconstructive*)
- Plastic Surgery
- Podiatry
- Urology
- Vascular

Minor Procedures

- Colonoscopy
- Capsule Endoscopy
- Eye Laser Surgery
- Lithotripsy
- Stereotactic biopsies
- Pain management (*epidural injections*)

TOTAL JOINT CENTER

(908) 441-1144

THERAPY CENTER

(908) 850-6925

- Cardiac rehabilitation
- Occupational therapy
- Physical therapy
- Speech therapy
- Audiology
- *Get Fit!*

T.C. KIDS offers specialized programs for children, including:

- Occupational therapy
- Physical therapy
- Speech therapy
- Audiology

VASCULAR LAB

(908) 441-1301

- Diagnostic testing
- Therapeutic treatment
- Treatment for blockage in peripheral arteries
- Balloon Angioplasty
- Stenting in arteries outside the heart
- Carotid artery diagnosis
- Cryoplasty

WOUND HEALING CENTER

(908) 979-8788

- Comprehensive medical and debridement treatment for chronic wounds
- Hyperbaric oxygen therapy
- Negative pressure therapy

Pediatric Hospitalist Physicians (left to right) Ricki Lynn Gottlieb, M.D., Sharon Spiteri, M.D., FAAP, M.P.H., and Julio Guerra, M.D., FAAP.

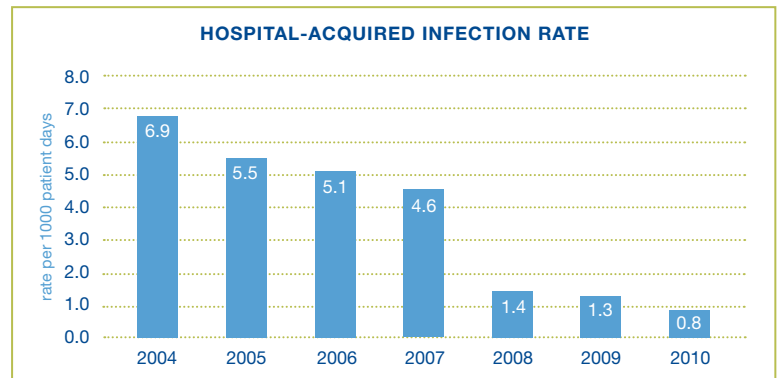

COMMITMENT TO Quality & Patient Safety

Quality is more than just a word.

Quality is a way of life — a choice you make.

H RMC continues to apply and monitor evidence-based initiatives in pursuit of zero [0] hospital-acquired infections (HAI). The hospital-wide HAI rate has continued to decline irrespective of a drop or climb in total patient volume. The culture of maintaining zero HAIs is being nurtured through emphasis on:

- Evidence-based practice when inserting devices and performing procedures
- Decreasing the number of days a patient is on a ventilator or has had either a urinary catheter or a central line
- Proper and aggressive isolation practices
- Antimicrobial stewardship
- Hand hygiene
- Patient education

HRMC is working diligently toward a goal of zero (0) hospital-acquired infections.

We have sustained a perfect score for AMI since the first quarter of 2007. This superior outcome is reached and maintained only through teamwork and true commitment to our patients.

WhyNotTheBest.org currently displays Hackettstown Regional Medical Center's overall composite score of 98.21% at the rank of 221st out of 2057 hospitals nation-wide. The national top ten percent score is 99.58% and the average for the state of New Jersey is 96.51%. [Data time period: 2Q09-1Q10]

In 2010, HRMC consistently provided the right care to the right patients:

CORE MEASURE	RECEIVING APPROPRIATE CARE
Acute Myocardial Infarction	100%
Pneumonia	98%
Congestive Heart Failure	99%
Surgical Care	97%

These scores place Hackettstown Regional Medical Center in the top 10% of hospitals in New Jersey for each of the measures.

Total Joint Center Orthopedic Surgeons (left to right) John Murphy, M.D., Robert DeFalco, D.O., Jerome Rosman, M.D., Michael Deehan, M.D., and Paul G. Teja, D.O.

COMMUNITY BENEFIT Report

Hackettstown Regional Medical Center is extremely proud of our 38 years of service to Warren, Morris, Hunterdon and Sussex counties. We are committed to responding to community health needs in the spirit of our organizational mission.

HRMC was founded through the grass roots efforts of members of our community. It is in appreciation of our founders that we consider our hospital to be a good community citizen. Today, the Internal Revenue Service and the State of New Jersey require that hospitals provide a report of the contributions we make to the community.

EDUCATION, WELLNESS SCREENINGS, PROGRAMS AND SERVICES OFFERED THROUGH HRMC'S CENTER FOR HEALTHIER LIVING

Senior Programs

- Health Seminars
- Health Screenings
- Technology Classes (computers and cell phones)
- Back in Time — History Series
- Arthritis Exercise Classes
- Tai Chi for seniors with arthritis
- AARP Safe Driving Courses
- Social Events
- Holiday Party

Prenatal Classes

- Childbirth Education
- Breast Feeding Classes
- Baby Care Classes
- Sibling Classes

CPR and First Aid Classes

Lifeline® Emergency Response System

Vaccinations

- Pneumonia
- Seasonal Flu

Community Education

ADVENTIST HEALTHCARE HEALTHY COMMUNITY IMPACT FUND

In 2009, the Healthy Community Impact Fund was established. This fund provides an opportunity for our business partners to support the entities that make up the Adventist HealthCare system of hospitals and other health care service providers.

Support of the Healthy Community Impact Fund is important to sustaining and growing quality programs that promote healthy children, encourage healthy lifestyles for seniors, foster healthy families, and, in a holistic way, build healthier communities.

We would like to thank the following business partners for their support of the 2010 Healthy Community Impact Fund.

Adventist HealthCare Support Center Employees
Anthelio HealthCare Solutions
Boone & Crockett, LLC
Cammack LaRhette Consulting
DECO Recovery Management
Deerfield Construction
FaithSearch Partners, Inc.
Genesis Security Systems, LLC
Lerch, Early & Brewer
Louisa Hollman Special Events

Quest Laboratories
Sam's Club Foundation
Turner Construction

Taking Care of Our Community. The mission of Adventist HealthCare (AHC) is to improve the health of people and communities through a ministry of physical, mental and spiritual healing. Every dollar donated through the Healthy Community Impact Fund (HCIF) is used to assist in meeting the health care needs of the communities we serve. If you are interested in learning more, please contact Steve Maternick at (908) 979-8780.
